2. SAFETY INSTRUCTIONS

Due to the considerable weight of the elements unpacking and placing of the product should be done by at least 2 people.

While the corrosion is still superficial, the Corten steel elements may cause orange stains on clothes, skin and the surface they stand on. When it rains, corrosive water may also run off these elements, which may permanently stain light-toned stone or wooden surfaces.

OFYR® Wood Storages Black are more sensitive to damage during setup and use because of its coating.

Only place your OFYR® Wood Storage on a hard, leveled and stable surface.

Do not shift the OFYR® Wood Storage after setup. This may cause damage to the adjustable feet or the rivet nuts with which they are attached.

Do not use the adjustable feet to change the overall height of your OFYR® Wood Storage. The wood storage may become unstable if the adjustable feet are extended by more than 10mm.

OFYR® Wood Storages are very heavy and should be attached to a solid wall via the holes in the backs of the boards. If they fall over, this may cause severe or life-threatening entrapment injuries.

No mounting hardware has been included, because different types of walls require different mounting hardware. Use mounting hardware that is suitable for your type of wall. Please contact a specialised dealer to obtain advice regarding which hardware to use.

Never leave the OFYR® Wood Storages unattended and keep children and pets away from the Wood Storage.

3. DISCLAIMERS

3.1 INTENDED USE-, SAFETY- AND MAINTENANCE INSTRUCTIONS/TIPS

We are not liable for any injuries or damages as a consequence of not following our intended use-, safety- and maintenance instructions/tips.

.....

3.2 CORTEN STEEL

OFYR® Wood Storage Corten is made of Corten steel: a metal with a natural layer of corrosion that protects against rust perforation. OFYR® Wood Storages corten come with the additional service that the corrosion process has already started by the time they are delivered. Upon delivery, it takes another 6-12 months for the initial corrosion to turn into a fully protective layer.

The unit's color may change over time as the corrosion process may not yet have fully unfolded. We are not liable for any color changes.

Any Corten steel components that are less corroded than others upon delivery are not eligible for replacement. All components will corrode naturally over time under influence of the weather. We are not liable for any differences of corrosion between different elements.

While the corrosion is still superficial, the Corten steel elements may cause orange stains on clothes, skin, and the surface they stand on. When it rains, corrosive water may also run off these elements, which may permanently stain light-toned stone or wooden surfaces. We are not liable for stains as a consequence of corrosion.

3.3 BLACK-COATED STEEL

Please note that the OFYR® Wood Storages Black have a coating and are thus more sensitive to damage during setup and use. We are not liable for any damage or consequential damage resulting from the setup or use of your OFYR® Wood Storage black.

Due to weather and sunlight the coating can be subject to discolouration. We are not liable for such discolouration.

4. WARRANTY TERMS PER ELEMENT
